Professional Summary

Frontend Developer with 1.5 years of professional experience building and maintaining production-ready web applications using React.js and Next.js. Experienced in developing scalable UI components, integrating REST APIs, and optimizing performance for SEO-driven and business-critical platforms. Hands-on experience working on enterprise retail and automation systems in real-world production environments.

Education

Vidyavardhini's College of Engineering & Technology

Jan 2021 – May 2024

Bachelor of Engineering in Artificial Intelligence and Data Science

Vasai, Maharashtra

Experience

Instinct Innovations

Sep 2024 – Present

Associate Software Engineer

Mumbai, India

- **Frank Ross Pharmacy (Next.js – SEO Focused Revamp):** Revamped frontend using Next.js with SSR, significantly improving SEO visibility, performance, and mobile responsiveness for a pharmacy e-commerce platform.
- Integrated REST APIs and collaborated closely with backend developers to ensure accurate data rendering, optimized API usage, and seamless user workflows.
- Built reusable UI components and structured pages using CSS Modules, improving maintainability and UI consistency across the application.
- **PharmacyPro (React Retail Management Platform):** Worked on a large-scale production retail management system by enhancing modules, fixing production issues, and improving UI workflows across sales, billing, and inventory operations.
- Implemented GST-compliant **E-Invoice and E-Way Bill integrations**, enabling automated compliance and real-time invoice processing for B2B pharmacy operations.
- **TinyCommand Automation Platform:** Developed API-based integrations enabling automated workflows between third-party services similar to Zapier/Make automation systems.

Projects

CineScope – Movie Discovery App | *React, Tailwind CSS, Firebase, OMDb API*

- Built a movie discovery application with advanced search and detailed movie pages using OMDb API.
- Implemented authentication, dark mode, and responsive UI using Tailwind CSS.
- Optimized component structure and API calls to improve performance and maintainability.

Fake News Detection System | *Python, Flask, Machine Learning*

- Developed a web interface to verify news authenticity using an ML classification model.
- Integrated backend APIs to enable real-time prediction workflows.
- Designed a responsive UI to clearly present prediction results and improve usability.

Portfolio Website | *Next.js, Tailwind CSS*

- Designed and developed a personal portfolio website showcasing projects and technical skills.
- Implemented responsive layouts and reusable UI components using Tailwind CSS.
- Optimized performance, accessibility, and SEO using modern frontend best practices.

Technical Skills

Languages: JavaScript, Core Java, SQL

Web Technologies: HTML5, CSS3, Responsive Design, REST APIs

Frameworks & Libraries: React.js, Next.js, Redux, Tailwind CSS, CSS Modules

Databases: PostgreSQL, Firebase

Developer Tools: Git, GitHub, VS Code, Postman, Chrome DevTools, npm

Certifications

The Complete Web Developer Course - HTML, CSS, JavaScript, React Fundamentals

Postman API Fundamentals — API Testing, Collections, Environment Management

SQL Mastery — SQL Queries, Joins, and Database Fundamentals
